The amino acid profile is adapted from information in J. Nutr. (1965) 87:267-276 (Q.R. Rogers & A.E. Harper). The amino acid profile is not modeled after that of an intact protein source. Modified from a previous amino acid defined diet (TD.86529) to alter the carbohydrate profile, reduce oil slightly, and use AIN-93 vitamin and mineral premixes.
